

# 2023 OSHA **FREE** Seminars with Georgia Tech Professional Education

Registration is required.

## SAVANNAH IN-PERSON

### ▶ **OSHA 7225: Transitioning to Safer Chemicals - SAVANNAH**

Come learn – for free! – from professionals within Georgia’s state OSHA Consultation Program who are well-experienced in assisting businesses with their safety and health concerns and questions. These short, free courses have lots of time for discussion with instructors and networking with other attendees on shared successes and challenges.

*For \$25, you can get CEU credits for these courses. More information can be provided on this opportunity AND how to use one free seminar attendance as an elective in one of our OSHA certificate programs! Visit [pe.gatech.edu](https://pe.gatech.edu) to learn more about our OSHA certificates.*

In the transitioning to safer chemicals seminar, you’ll learn OSHA’s seven-step substitution planning process so you can evaluate chemical use, study possible alternatives, and pursue safer alternatives. As companies work towards achieving sustainability goals while ensuring quality and production needs, a proactive approach that eliminates chemical hazard risk while also avoiding regrettable substitutions is needed. This seminar – designed for purchasing staff, maintenance supervisors, facility managers, and workers – will provide guidance on how to develop a plan of action for transitioning to safer chemical alternatives in the workplace.

**Date: March 2, 2023**

**Time: 8:30 – 5:00**

To register for one or more of these seminars, please visit <https://b.gatech.edu/3XTnPLB>.

## ▶ **OSHA 7005: Public Warehousing and Storage ATLANTA**

Potential hazards in this rapidly growing and fast paced industry are numerous, and unfortunately, injuries to warehouse employees are on the rise. In fact, OSHA reported that the fatal injury rate for warehouse workers is greater than the national average. This course addresses public warehousing and storage operations, including encounters with powered industrial trucks, material handling, lifting and ergonomic challenges, chemical hazards, slips, trips, and falls, and life safety requirements including fire protection and evacuation.

**Date: June 13, 2023**

**Time: 8:30 - 4:30**

## ▶ **OSHA 7510: Introduction to OSHA for Small Business Seminar ATLANTA**

If you own or manage a small business, you owe it to your company to understand how you can work with the Occupational Safety and Health Administration (OSHA) to reduce and even prevent injuries and illnesses. This free seminar, Introduction to OSHA for Small Business, will help you understand the OSHA inspection process, how it operates, and most importantly how to create a safety and health program for your company.

**Date: August 17, 2023**

**Time: 8:30 - 12:30**

## ▶ **OSHA 7100: Introduction to Machinery and Machine Safeguarding Seminar ATLANTA**

Protect your workers and yourself by learning proper machine safeguarding techniques. You'll walk away understanding your legal responsibilities for safeguarding your employees, plus different methods you can use to do so.
